Part I: My Purpose and Inter

١Λ٨	name is	
	, marrie is	•

Why I Am Making this Document. I sometimes have periods of mental health crisis, when I am not able to make informed decisions for myself. I create this Mental Health Advance Directive to state my choices now, when I have full decision making capability, about what my mental health care should be during those times when I cannot make informed decisions for myself.

I understand that if I am in a period of mental health crisis, a guardian or other decision maker might be appointed by a court to make mental health decisions for me. If that happens, I specifically direct that the appointed guardian or decision maker follow the instructions in my Mental Health Advance Directive. I specifically intend that this document will take priority over all other means of understanding the intentions and wishes I would express during periods when I am NOT in mental health crisis.

Possible Invalid Portions. Even if a portion of this Mental Health Advance Directive is found to be not valid under West Virginia state law, I want this document to be considered a statement of my wishes as expressed when I was not in a mental health crisis. I want this Mental Health Advance Directive to be accorded the greatest possible legal weight and respect.

When My Mental Health Advance Directive Will Be In Effect. My Mental Health Advance Directive will have no legal effect until the time that I cannot make my own informed decisions about my mental health care for myself. At that point my Mental Health Advance Directive will come into effect. When I regain the ability, referred to as "capacity", to make informed decisions for myself, then my wishes at that time will override any different provision in this Mental Health Advance Directive. My "incapacity" is to be determined by a qualified physician and a second qualified physician or qualified psychologist.

Effect of Change of Representative. If I have named a "representative" to make health care decisions for me when I do not have the ability to make informed decisions for myself, then my wishes expressed in this Mental Health Advance Directive should be honored whether or not my representative dies or withdraws or if I have no representative appointed at the time of the execution of this document. If I have not named a representative, these instructions shall be binding upon whomever may be appointed as my representative or other decision maker.

Priority Over Other Documents. I intend my Mental Health Advance Directive to take priority over any and all medical power of attorney and/or other advance directives I have previously executed, to the extent that they are inconsistent with this document.

My Wish To Be Involved If Possible. Regardless of my decision making ability and this mental health advance directive, I want to be fully informed about and allowed to participate to the greatest extent possible in any mental health care decision for me.
